

Broadband Services

High-bandwidth broadband services

Full wire-speed

Distance independent pricing

Highest level of resiliency and redundancy

24x7 Network Management and Support

Brighter Networks offers high-bandwidth Broadband Services for businesses in the greater Dublin area. The Broadband Services are delivered over a fiber optic legacy-free network and are suitable for Enterprise Site-Interconnects (LAN-to-LAN), Internet Connectivity (LAN-to-Internet) and Business Continuity Services.

Pure Speed

Brighter Networks' product is a 100 Mbit/s high-speed link. The connection is not over-subscribed, so the speed you purchase is the speed you get.

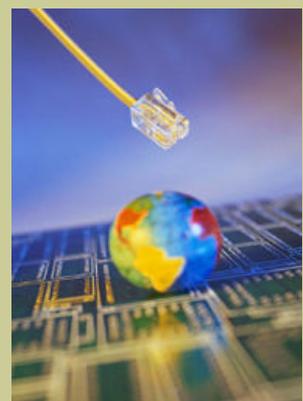

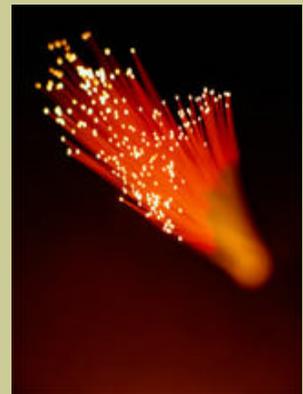

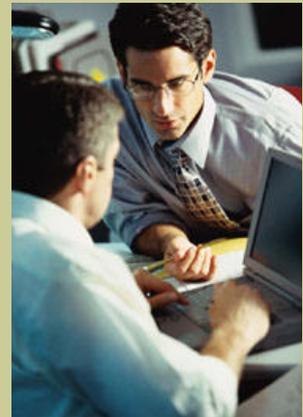

(Gigabit Ethernet and Wavelength Services can be provided as customised solutions.)

Unique Technology

Built on a resilient IP-over-fiber infrastructure Brighter Networks' high-speed services are delivered on fiber directly to your office. The combination of IP protocol and on-site Ethernet handoff provides utmost simplicity, eliminates unnecessary conversions and guarantees seamless integration with your existing network.

Best Price

The Brighter Networks' pricing is simple and affordable. Forget about port, access and backbone charges. With Brighter Networks you pay one quarterly, distance independent and highly competitive charge for your entire end-to-end connection.
